Dear Insurance Company,

As per discussed with you guys, I am going to send you my certification of Naturalization and passport copy. We got citizenship before 2 months. There is one more thing I wanted to let you know that my son and daughter are under 18 so they don't have Naturalization Certificate and I have already applied for their passport but it's under process. For passport process, I have submitted my son's and my daughter's green card to US passport office. As soon as I got their passport I'll provide their passport copy to you. But right now I am sending my passport copy and my husband's green card copy to you. My husband is green card holder he is not citizen at this time and there is one minor spelling mistake in our surname in your record. I wanted to make spelling correction. Last name is "Chaniyara" not "Chamiyara".

Thank you. Please let me know if you want any other documents.
